

Minutes of IBPSA-USA Emerging Simulation Technology Research Subcommittee

Time: 11am - 12pm PST 03/28/2018

Participants:

Nathaniel Jones (Arup) (co-chair)
Sen Huang (PNNL) (co-chair)
Zheng O'Neill (University of Alabama)

Location: freeconferencecall

Notes:

Whitepaper

The subcommittee discussed the literature review on the states of the art and practice with regard to emerging simulation technologies and the follows are some notes for the discussion:

- The deliverable can be journal articles or conference papers
- A draft outline is available and need to be further discussed in next meeting so that each section can be assigned to the members who are interested in it
- The person who will take the lead for the literature review should also be identified in the next meeting

Blog/Newsletter

The subcommittee also briefly discussed a weekly/monthly updated blog/newsletter on new and emerging simulation tools. More detailed discussion on the content should be included in the next meeting.

Actions:

- Nathaniel Jones will develop and circulate a structure for blog posts.
- Members in attendance will draft content for the assigned topics.
- Subcommittee members will suggest future events and webinars that the subcommittee may publicize or participate in.

Next meeting:

To be determined by poll.
